

THE NEXT EVOLUTION OF URINAL HYGIENE

BioCapsule™ is the biological engine behind the BioFlow™ Urinal System. Delivering continuous odor control, improved drain health and significant water savings.

BIOLOGICAL ODOR CONTROL

Billions of beneficial bacteria break down odor-causing compounds, preventing odor at the source.

ACTIVE DRAIN PERFORMANCE

Keeps drain buildup soft for easy flow. Drastically reduces plumbing call outs for blockages.

PROFOUND WATER SAVINGS

Enables facilities to significantly reduce flush frequency - turning every urinal in your building into a water-saving fixture without a single renovation.

ECOPURE® END-OF-LIFE DESIGN

Contains EcoPure® additive to facilitate faster biodegradation in landfill.

UNIVERSAL URINAL COMPATIBILITY

Engineered for seamless compatibility with most flush and waterless urinal systems.

1,000+ USES PER CAPSULE

Each Capsule is engineered to sustain active microbial populations through a minimum of 1,000 uses before replacement.

ORDER CODES

BIOCAPSULES	ECOBBLUE	BRADYPLUS
Box of 10	EMC10	N/A
Box of 25	EMC25	EMC25

part of the COMPLETE BIOFLOW™ URINAL SYSTEM:

An integrated suite of urinal care products designed to conserve water and transform urinal hygiene through biological technology.
